

# Gout

## shared care

### Partner with *your Specialist and your GP*

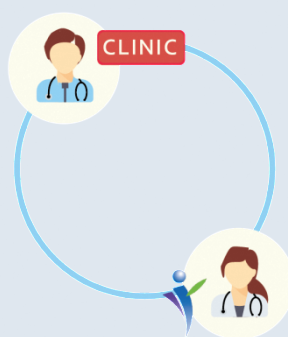

On top of your Specialist, your GP can also co-monitor your gout conditions and help to manage your other health concerns like acute illnesses (e.g., flu) and preventive care (e.g., vaccinations, health screening)

### Why Participate?

#### Near Your Home, At Your Convenience

See your trusted GP located near your home to reduce unnecessary trips to the specialist. You may choose to see your GP on evenings and/or weekends.

#### Continue to Receive Specialist Care

You may continue to see your gout specialist, with your GP co-monitoring your condition between specialist visits, and communicate with your specialist if needed.

#### Continue to Receive Subsidised Medications

You can continue to receive subsidised medications from Yishun Health Pharmacy or your GP\*. Medications can be delivered to your home.

\* From early 2024, CHAS, MG and PG patients can opt for Healthier SG Chronic Tier to enjoy common chronic drugs from their enrolled Healthier SG GP clinics at prices comparable to polyclinics. Terms and conditions apply.
